Agriculture and Life Sciences

Vol. 46 1994

Contents

Original Papers
Takio ICHTANI, Yuriko FUJITA and Toshimi KOBAYASHI : Materials for Pythium Flora of Japan (VI) Morphology of acquired resistant isolates of Pythium vanterpoolii against metalaxyl ............................................. 1
Yoshifumi USAMI, Akihiro KATSURA and Toshikazu URADA : Environmental Awareness and Opinions of Urban Residents on Urban Farm Land Preservation ................................................................. 7
Kazuuo MURASHIMA and Yoshihiko OGINO : Evaluation of Subsurface Drainage System for Excess Rainfall -Design on Subsurface Drainage in Paddy Fields (II)------------------------ 19
Katsuhiko YABE and Torahiko TANIGAWA : Land and Water Management for Cultivation under Cover in Kinki District (III) —Case studies of the general standards and the actual development——— 33
Takao KUWABARA and Masashi MOTEGI : Study on the Diagnosis System for Materials by Using of AE method— The Characteristics of Mortars 45
Kazuo UEDA : Influence of Three Phases of Soil on the Drying of Soil Moisture by the Microwave Heating ................................................................. 53
Yasuhiro SHIMOMURA, Daishu ABE, Noboru MASUDA, Satoshi YAMAMOTO and Hideki KONDO : A Comparative Study on the Conservation of the Historical Streetscape in Japan and Australia .................................................. 75
Satoshi YAMAMOTO, Noboru MASUDA, Daishu ABE, Yasuhiro SHIMOMURA and Satoshi ISHIKAWA : Methodological Approach for the Detection of Ground Cover Classification and Surface Temperatures of the Waterfront using Landsat TM Data .................................................................................. 85
Hyung Hee UM and Yukio OMOTO : Seasonal Difference in Urban Climate of Osaka and Kyoto ........................................................................... 95
Ken HAMOTANI, Nobutaka MONJI and Yukio OMOTO : Spectra of Vertical Velocity and Temperature Fluctuations in a Taro Canopy 101
Naofumi MORITA, Li ZHANG and Masanosuke TAKAGI : Effect of Erythrobate on Breading in a Home Baker .............................................. 107
Michiko FUJII and Kenichi YOKAWA : Purification and Properties of Glutamate Synthase from Germinating Castor Bean Cotyledons ..................................................... 117
Tokuhiko OHISHI, Shinich OKAMOTO, Syojo KIMURA, Meiko TAIMATSU and Akira ENDO : Radiation Sensitivity of Microorganisms Adhering to the Crude Drug "Bezoar Bosvis" and Stability of its Main Components for γ-Ray Irradiation ................................................................... 125

Doctoral Thesis
Takehi MATSUMOTO : Researches on Ancient Rice and Historical Sites in Japan ... 135
Yasuhiro SHIMOMURA : Fundamental Study on the Consolidation of Pedestrian Space on the City Street .................................................. 195
Takashi HIRANO : Studies on the Effects of Dust on Photosynthesis of Plant Leaves ................................................................. 237
